### a little about me

- Jed is an affectionate, sweet, quiet, calm, gentle/respectful, playful and goofy boy.
- He adores people and everyone he meets. Happily, wants to say hello to everyone he sees (would make a good cafe partner).
- He is an excellent walker on a loose lead and enjoys going for a walk. However, he does tire quickly, at which point he enjoys a good snooze in some weird positions.
- He loves playing with hard rubber toys, particularly by himself but is learning to play with other dogs.
- He adores car rides and happily wants to go for adventures (or even just sleep in the car).
- He is good with dogs of any size, but he does forget his size while playing which can overwhelm little dogs.
- Jed could live as an only dog or with a doggy friend of any size but would prefer a medium to large friend to play with.
- Children 5+
- Has spent time in a home with multiple other dogs.
