

hello!   
my name is

**cuddlepot  
for adoption**

**JERWOOD**

**age:** 4 years

**sex:** Male

**desexed:** YES

**a little  
about me**

- He is a bubbly, playful, sweet, bouncy, excitable, and very affectionate boy.
- He adores people and loves everyone he meets. He would love nothing more than to snuggle up with you & have cuddles on the couch or go be a social butterfly. He would be a perfect cafe friend as he will just lay down on lead when people are talking.
- He loves going for loose lead walks and burning off some excitement by playing with his toys (especially balls)! He is excited to go out but is lazy, calm and relaxed once out & about, and he does tire quickly.
- He adores water and having a good soak in his paddle pool (will probably love the beach)!
- Good with dogs of all sizes but can be rude when excited and can be rude/rough during some play. He could live on his own or with another doggy friend.
- Children 5+, he would love a family to snuggle and play with.
- He is apartment or small backyard suitable.
- No pocket pets and has never been tested with cats.
