

hello! my name is

**cuddlepot
for adoption**

MOLLY

age: 4 years

sex: Female

desexed: YES

a little about me

- Molly is a quiet, calm, relaxed and affectionate gentle lady. She loves her food and getting cuddles from everyone she meets. She is an expert leaner when she is getting cuddles and is a dog that wants to be around people.
- She can be opinionated at times but can easily be swayed by the lure of food.
- She enjoys going for walks or a short zoomy and will walk on a loose lead, but she does tire quickly.
- She would like a quiet lifestyle where she can relax, sleep and cuddle with you and go for the occasional adventures.
- Molly is still learning other dog breeds and can be rude in her greeting. She is better on lead but is still learning to give personal space and not to play rough off lead.
- She could live alone or with a tolerant medium/large doggy friend.
- Children 5+ but she will collect their toys and hide them.
- She would like either a small or large backyard for a short zoom and to toilet in.
